

Susan E B Homar

I am the child of two Marines, and count Virginia as my home. We moved frequently when I was a child to different duty stations, but Alexandria, Va was our home space. I graduated from Mary Baldwin with a degree in history, and minor studies in Theater Arts. I continued my education at the University of Virginia, with a Masters degree in Urban Planning from the School of Architecture. Further studies were at Georgetown University in Healthcare Management. I spent the majority of my career with the Blue Cross Blue Shield plan in Washington DC in the area of Account Management, Sales, and as an Executive with responsibility for a subsidiary company engaging in ancillary products and programs.

I have been blessed in marriage for 45 years to my husband Don. We are grateful parents of Rachel, and grandparents to Sloane and Grace.

My faith has been nourished in the Episcopal Church throughout my life. My first church memories are as a child at Saint Luke's Church in Alexandria. More recently Don and I were active participants at Pohick Episcopal Church in Lorton Va. While there, I served as a member of the Vestry: Outreach Committee Chair; Team Leader for 10 mission trips to New Orleans following hurricane Katrina; Lay Eucharistic Minister; usher ; and Sunday School teacher.

Don and I moved to Savannah in 2017 and began attending Saint Peter's. My good friend, Kathy Heck, recruited me to volunteer in the church office. I am an active member of the Outreach Committee as the unofficial liaison with the Hesse School and St. Michael's Food Pantry. In 2018 I coordinated a presentation, for our church and the greater community, regarding the detention of immigrants in Georgia. In 2020 I was happy to join the Eye Clinic team in their mission to Santo Domingo. I have served as a member of the Market Committee for the last two years.

I continue to work on a part time basis, as a resource for individuals navigating their enrollment in Medicare, and their coverage options. Don and I enjoy travel and look forward to engaging in those adventures again soon.
